

21st September 2021

Dear Parent / Carer,

Covid vaccination programme for children aged 12-15 years

Last week the government announced that children aged 12 to 15 years in England will be offered one dose of the Pfizer-BioNtech COVID-19 vaccination, following advice from the UK's chief medical officers, and that this will take place in schools.

We are awaiting further information from the Leeds Vaccination Programme to ascertain when this will take place at Lighthouse School. NHS Staff from the Leeds Vaccination Programme will work closely with Lighthouse School to ensure that it is implemented in the safest and most appropriate way for our setting and students.

Parents will be asked to provide consent for their child to be included in the Covid vaccination programme and we will send further information about this in due course.

Government information for parents and carers can be found at:
